

**Region 5
Educational Collaborative
Wednesday, February 8, 2023
8:00 a.m. – 6:10 p.m.**

A “collaborative” is an effort, on the part of multiple organizations, to come together with faculty to learn about and to create improved processes in a specific topic area. The expectation is that teams share expertise and data with each other; thus, everyone *learns*, everyone *teaches*.
