Waiting List National Trends

- General “flattening” to growth of waiting list since 2007 – most significant for kidney
- Most relative growth in lung waiting list
- More heart waiting list additions in 2010 than in any previous year

Donor and Transplant Data

National Trends

- Deceased donor numbers decrease by 1.0% (7,944 from 8,022), but deceased donor transplants increased by 1.6%
- Decline in deceased donors due to drop in ECD donors
- DCD donor numbers continue to increase and now comprise 12% of deceased donors overall
- Slight decline in living donors from 2009-2010, but relatively stable for last few years
